About myself	I'm an experienced artist and I have performed in many different kind of productions from traditional circus tours to theatrical modern circus. I'm very relaxed, professional and easy to work with. I'm no acrobat or trained dancer but I have a great sense of rhythm due to years of dj'ing and dancing argentine tango. I'm mostly self-taught in my discipline and have created a personal style of performing and technique. I also work as a director, teacher and choreographer.
